

WHAT IS MY EXPMT TARGETING?

SHRUBIFICATION

"climate change" and cascade of impacts may not impact ALL LIFE STAGES equally. Plant response at pop^y and community level is an integration of impacts across life stages, and demographic rates.

LIFE HISTORY DIAGRAM

WHAT IS SPATIAL/TEMPORAL EXPRNT OF method?
Which methods can be "snapshot"
vs "time series"?

RATES

REPRODUCTION
SEED (sexual)
CLONES (asexual)

flower counts
seed counts

GERMINATION

seed bank
greenhouse
seedling survey

ESTABLISHMENT

Survival of
seedlings
db. survey
Expt. manipulating
environment

GROWTH

Dendrochronology
Height
Branch length
% cover
Carbon exchange
Leaf Area

METHODS

belowground connection?
identity individuals?
generally
